

Youth Scholars Institute

2010 Program

TITLE: Actuarial Science: Math for Fun and Profit

INSTRUCTOR: Patrick Brewer, PhD, Associate Professor of Mathematical Sciences

DESCRIPTION: Actuaries are business professionals who manage risk by using math and statistics. If you like math and want to know more about being an actuary, come spend a week with us exploring the profession. We'll learn some math, meet some actuaries, and go on a field trip to a consulting firm.
